ABOUT ME

Passionate Full Stack & Flutter Developer skilled in MERN, Next.js, and Firebase. Known for writing clean, maintainable code and building impactful digital solutions. Always eager to learn and contribute to real-world product development.

EDUCATION

B.TECH IN COMPUTER SCIENCE ENGINEERING

IIMT College Of Engineering,
Uttar Pradesh
2021 - 2025

SENIOR SECONDARY (PCM)

Police Modern School,
Ghaziabad, Uttar
Pradesh
2020 - 2021

HIGH SCHOOL

Police Modern School,
Ghaziabad, Uttar Pradesh
2018 - 2019

SKILL

Languages

- HTML
- CSS
- JAVASCRIPT
- Dart

Frontend

- React.js
- Next.js
- Flutter

Backend

- Node.js
- Express.js
- Firebase
- MongoDB

Tools & Platforms

- Git
- GitHub
- WordPress
- Shopify
- REST APIs

WORK EXPERIENCE

• MS TECHNOLOGIES

2022 JUL - 2022 OCT

Web Developer

- Developed and maintained responsive web applications using MERN stack (MongoDB, Express.js, React, Node.js) and Next.js, improving performance and user experience.
- Integrated Firebase for authentication, real-time database, and hosting services, ensuring secure and scalable backend solutions.
- Collaborated with cross-functional teams to gather requirements, design UI/UX, and implement features in agile sprints.
- Utilized MongoDB for efficient data modeling and implemented RESTful APIs to support front-end functionality.
- Conducted code reviews, optimized application performance, and debugged issues to maintain high quality standards.
- Contributed to deployment and version control using Git, GitHub, and CI/CD pipelines.

• CODEC

2024 NOV - 2024 DEC

Web Developer

- Created modern, responsive user interfaces with React, Next.js, and Node.js.
- Built responsive web apps using MERN and Next.js stack.
- Integrated Firebase for real-time database updates, cloud functions, and user authentication.
- Designed efficient database schemas using MongoDB, and built reusable components for faster development.
- Contributed to UI/UX improvements and maintained code quality through regular reviews.
- Conducted code reviews, optimized performance, and handled CI/CD pipelines.
- Created REST APIs and collaborated in Agile environment.

LANGUAGE

- English: Proficient
- Hindi: Native

INTERESTS & HOBBIES

- Coding personal projects
- Learning new programming languages
- Playing multiplayer games
- Exploring AI tools for development

PROJECTS

• ON-DEMAND BEAUTY SERVICE APP

Flutter • ReactJS • Firebase

Developed a complete on-demand beauty service application with real-time booking, authentication, and service management using Flutter for frontend, Firebase for backend services, and ReactJS for admin dashboard.

• WEATHER FORECAST APP

Flutter • OpenWeather API

Created a sleek and responsive weather app that fetches and displays real-time weather data, forecasts, and location-based updates using the OpenWeather API.

• CRM FOR HOSTSPICA

Next.js • Firebase

Designed and built a CRM system to manage client leads, communications, and projects, enabling seamless team collaboration and efficient task tracking.

• HOSTSPICA WEBSITE

React • Firebase

Developed a fully dynamic website for HOSTSPICA showcasing services, testimonials, and blogs. Integrated Firebase CMS-like structure for content management.

• EXILIR – HAIR SERUM PRODUCT WEBSITE

Next.js

Built a single-product showcase website with smooth UI/UX to promote and inform users about Exilir hair serum, optimized for conversions and SEO.

• INVESTIGATION REGISTER & VIRTUAL FIR SYSTEM

Flutter • Firebase

Developed a digital investigation and FIR system tailored for police use. Enables officers to log, update, and track case details virtually with secure authentication and role-based access.
